Additional Education

2014 - Cisco Networking Academy (CCNA Discovery)
2017 - Hackaton B&N Bank Frontend Hack

Also

Cyber security stuff
Linux stuff

Languages

Russian/Ingush (native)
English (Intermediate)
Japanese (4 kyu).

All I need for learning new technology is the place where I can make tea. Each of my jobs had required me to learn my profession from scratch, and it's never been a problem for me.
In my free time I study anthropology and do stand-up comedy.
